FOR IMMEDIATE RELEASE

Community Outreach Event for U.S. Route 101 Managed Lane Project in San Mateo County

San Mateo County – The California Department of Transportation (Caltrans), along with the San Mateo County Transportation Authority and the San Mateo City/County Association of Governments, will host a community outreach event to discuss the U.S. Route 101 Managed Lane Project in San Mateo County. The meeting will be held on May 31 at 6:30 pm at San Mateo City Hall, 330 West 20th Avenue, San Mateo.

The Managed Lane Project aims to reduce congestion along the heavily-traveled 101 corridor between Interstate 380 and Santa Clara County by encouraging carpooling and transit use, and making use of the latest in traffic management technology. Some of the measures under consideration include converting existing HOV lanes to express lanes, adding new HOV or express lanes between Whipple Road and Interstate 380, and removing and replacing existing auxiliary lanes between interchanges.

This public meeting will be the first of two. The second will be held at Redwood City's City Hall, 1071 Middlefield Road, Redwood City, on June 5 at 6:30 pm.

More information about the project is available on the web site at:
